PW-SC-04	1/4" female NPT	10.80
PW-SC-06	3/8" female NPT	10.80

Spray tips are designated by the spray angle (a narrower angle produces more force over a small area, which is great for tough jobs but may gouge or strip softer surfaces), and by orifice size. The orifice size designates the gallons per minute flow at 4000 psi. For pumps operating at other pressures, the correct orifice can be chosen from the chart below. Using a larger orifice than recommended will cause loss of cleaning pressure. Using a smaller orifice will mean less flow of water at the maximum pump pressure.

Spray tips are available color coded by spray angle with quick disconnect ends, or with 1/4" male NPT ends. Common nozzles are shown below. Other sizes are available on request.

To choose the correct nozzle, find the pump pressure of your machine in the top row of the chart below. In that column, choose the row that shows the flow of your pressure washer. In the left column you will find the appropriate nozzle orifice size.

## BRASS ADJUSTABLE NOZZLE

528	Full size twist nozzle with rubber grip	\$18.10
-----	---	---------

## BRASS TWIST NOZZLE

This very compact nozzle is typically used for forest fire mop-up along with our small diameter garden hose threaded fire hoses.

G97B-GHT	Full size twist nozzle with rubber grip	\$ 9.50
----------	---	---------

These plant washdown nozzles come in two sizes. The standard nozzles weigh just under 3lb and measure about 6-1/2" long and high. The aluminum nozzle is full size but lighter in weight. Some users prefer the new Junior model, which weighs just 2 lb and measures in at 5-1/4". Both nozzles are rated for a maximum of 150 psi water up to 93°C and are NOT for use with steam.

## HOT WATER WASHDOWN NOZZLES & SWIVEL HOSE BARBS

Part No.	NPT Size	Hose Size	Description	PRICE EACH
S-150-W	1/2"		White standard spray nozzle	\$ 209.90
S-150-BL	1/2"		Blue standard spray nozzle	209.90
S-150-A	1/2"		Aluminum spray nozzle	179.00
S-150-JR-B	3/8"		Black junior spray nozzle	141.00

The brass and stainless steel swivel hose barbs listed here are generally used with these nozzles to reduce wrist fatigue but are ordered separately, depending on size required. They are supplied with hanger rings.
